

Form 7: Community Engagement Tracking

Instructions: Explain how stakeholders (e.g., community-based organizations [CBOs], residents, civic leaders, and frontline staff) and/or youth voices have been meaningfully involved in the visioning and development of this project. Examples of engagement can include notes from advisory councils or focus groups, survey results, and notes taken during stakeholder engagement sessions that pertain to behavioral health.

For youth-focused projects, youth involvement in the project planning, design, implementation, and evaluation is required.
